**TAMPI** Jasper

TAHPI is an award-winning international firm of specialist Health Planners and Healthcare Architects. TAHPI is one of the largest and most experienced Health Planning consultancies in the world offering Service Planning, Briefing and Design all in-house. TAHPI has extensive experience in modular design and prefabrication.

TAHPI has over 250 staff including Healthcare Architects, Interior Designers, Nurse Planners and Service Planners responsible for over 300 completed projects. TAHPI currently has over 40 healthcare projects under development around the world including 5 Medical Cities, 3,500 beds over 2 million square meters of area. TAHPI has offices in Sydney, Kuala Lumpur, Hong Kong, New Delhi, Bangalore, Coimbatore, Dubai, Riyadh, Muscat, Doha and London.

TAHPI is the author of numerous Health Facility Design Guidelines for Health Authorities and the International Health Facility Guidelines (iHFG) at [www.healthdesign.com.au/ihfg](http://www.healthdesign.com.au/ihfg). These are also available via apps for mobile platforms.

TAHPI has developed a commanding suite of web-based applications known as Health Facility Briefing System (HFBS), used by over 3,000 consultants for more than 8,000 hospitals. The applications enable rapid, standards-based project briefing, scheduling, design and costing. [www.healthdesign.com.au/infohub](http://www.healthdesign.com.au/infohub)

## Jasper

Founded in late 2001, Jasper Capital and its consulting arm Jasper Consult, have established themselves successfully in the Corporate Services and Built Environment Sectors in a range of emerging and developing markets through their offices in London and Dubai.

Jasper operate globally, although in most cases there is a strong Middle Eastern link on assignments, projects and transactions as well as managing services with partners with whom they support. They provide advice to a range of market-leading companies together with governmental and parastatal agencies globally and have successfully undertaken assignments in many diverse sectors and countries with particular focus to the GCC.

Jasper seeks to act as both advisor and, where appropriate, partner to its clients and to develop and sustain long-term relationships with clients and counterparts alike.

The Kingdom of Saudi Arabia has been a key focus for the business which has worked successfully for Government Ministries and entities such as SABIC and Maaden and with many of the Kingdom's leading private sector banks and companies. The Jasper team has been active in the Kingdom since 1990 and has a wealth of experience in the local and regional healthcare and construction sectors.

The alliance offers healthcare operators and owners a full spectrum of Integrated Healthcare, Built Environment, Consultancy & Management Services. The services cover all aspects of the healthcare provider's needs, focusing particularly on the physical built environment of healthcare spaces and facilities, associating all matters from feasibility, planning and funding to actual deliverables.

Our consultancy services provide everything from design to physical implementation of construction and engineering strategies, and full project lifecycle and operational functions.

The alliance also provides operators and owners the combined knowledge and successful expertise of many years of healthcare and built environment experience.

## Aim

Deliver a customer centric focus in all aspects of our service

We listen to our clients needs, reflect and adapt as appropriate

Provide excellence in service – from design and engineering to construction and management in accordance with global best practice

Offer and provide technical knowledge to international standards, whilst respecting local demands and requirements

Our depth of sector knowledge and extensive networks enable us to best influence our client's objectives

Deliver a tailored specialised and conected service throughout the entire project cycle
